Connecting Athletes To Scholarships[®]

Get On The Radar provides much needed help to high school athletes, parents, and coaches. Get On The Radar offers an affordable set of recruiting tools geared towards connecting high school athletes to college coaches to find that much coveted scholarship. These tools put that power in the hands of the athlete.

Get On The Radar's goal is to help athletes take control of their recruiting process while remaining affordable and available for everyone. Get On The Radar moves the athlete from the REACTIVE side of the equation to the PROACTIVE side. This allows the athlete to initiate and foster relationships early with college coaches, instead of waiting.

The tools allow athletes to take control of the recruiting process by proactively connecting with and generating interest from college coaches. The tools include an online recruiting profile, highlight videos, a searchable database of over 24,000 college coaches, college coach contact and social media information, and an internal coach-athlete communication avenue.

With Get On The Radar, athletes now have the ability to proactively affect their pursuit of a scholarship. Parents now have an avenue to help offset the costs of college. High school coaches and guidance counselors now have a resource to help all of their athletes achieve their dreams.

ABOUT - The story of Get On The Radar is one rooted in a tale of three sports-loving brothers from Kansas who grew up pouring over the sports page of the newspaper at the breakfast table. The brothers played and watched every sport they could get involved in. Time passed, families grew, and their love for sports remained. As their children edged towards their college years, the idea of Get On The Radar formed. A merger of their love of sports, family, and the ridiculously high costs of college.
